

**Psychology Health & Medicine 2016
Programme Overview**

Time			
09.15-10.00	Registration & Refreshments Boole Lecture Hall Basement		
10.00-10.20	Welcome & Opening Ceremony <i>Dr. Samantha Dockray, School of Applied Psychology, UCC</i> <i>Professor Ted Dinan, Head of Department of Psychiatry, UCC</i> Boole 2		
10.20-11.10	Plenary Session 1 Boole 2 <i>Dr. Molly Byrne</i> National University of Ireland, Galway A Decade of Lessons in Behaviour Change Intervention Research Chair: Dr. Samantha Dockray		
11.10-12.40	Parallel Session 1		
	Session A: Adherence	Session B: Chronic Pain / Families	Session C: Stress & Stress Reactivity / Body Image
	Conscientiousness and adherence to oral contraceptives: A replication study <p style="text-align: right;">Gerard Molloy</p>	<u>A SIGPeP Symposium</u> <i>The role of cognition and coping in the experience of acute and chronic pain by children</i>	Precarious employment, workplace bullying and the cortisol awakening response <p style="text-align: right;">Stephen Gallagher</p>
	The INCA TM (Inhaler Compliance Aid TM) – validation against established measures of adherence <p style="text-align: right;">Katie Moran</p>	State versus trait: Validation of state versions of pain catastrophizing scales for parents and children <p style="text-align: right;">Hannah Durand</p>	Psychosocial stress and blunted nocturnal blood pressure dipping in healthy adults <p style="text-align: right;">Anne-Marie Creaven</p>
	Modelling psychological predictors of adherence using the INCA device <p style="text-align: right;">Garrett Greene</p>	Reducing children’s venepuncture pain and distress: The role of distraction type and parent distraction coaching <p style="text-align: right;">Jennifer Keane</p>	‘...Love me, loves me not...’ The implications of ambivalent social relationships and psychophysiological wellbeing <p style="text-align: right;">Rebecca O’ Brien</p>
		Development of a web-based pain management programme for children with chronic pain and	

	<p>Effectiveness and content analysis of interventions to enhance medication adherence in hypertension: A systematic review and meta-analysis Eimear Morrissey</p> <p>Engaging with future health psychologists: A qualitative study of students' experiences of studying MSc Health Psychology programmes in the UK Jenny Mc Sharry</p> <p>The development of lasting impact: A theory driven concussion education programme Lindsay Sullivan</p>	<p>their parents: Participatory methods and usability testing Angeline Traynor</p> <p>The role of perinatal and obstetric factors in post-partum parenting stress for mothers and Fathers Karen Matvienko-Sikar</p> <p>Factors influencing families' initial and continued attendance at community-based family-focused childhood weight management programmes: A systematic review Emily Kelleher</p> <p>Living and coping with Type II Diabetes: A qualitative exploration of the managing Type II Diabetes in older adult population Gillian DunnGalvin</p>	<p>Physical after-effects of colposcopy and related procedures and their association with psychological distress: A longitudinal study Mairead O' Connor</p> <p>Capturing the mechanisms through which peers impact adolescent body image through the lens of a newly developed conceptual model Ursula Kenny</p> <p>How does that make you feel? An investigation into the relationship between stress, perceived social support, burnout, attachment style and compassion fatigue in therapists informed by the transactional theory of stress Ciaran Carr</p>
12.40-13.10	Poster Viewing & Lunch (Main Restaurant)		
13.10-13.40	Division of Health Psychology AGM West Wing 5		
13.40-14.20	Poster Session Boole Lecture Hall Basement		
14.20-15.10	Plenary Session 2 Boole 2 <i>Professor. Jane Ogden</i> University of Surrey, UK Do no harm: balancing the costs and benefits of health psychology research and practice. Chair: Dr. Margaret O' Rourke		
15.10-16.10	Parallel Session 2		

	<p align="center">Session A: Health Behaviours</p>	<p align="center">Session B: Interventions</p>	<p align="center">Session C: Psychobiological Stress Reactivity</p>
16.10 – 16.30	<p>The HIV Revelation Model: Predicting the disclosure of HIV seropositivity during casual sex between men Patrick Murphy</p> <p>Risky Business: Men’s sexual risk taking behavior viewed in terms of life history theory Robert King</p> <p>Physical activity in European adolescents and associations with anxiety, depression and wellbeing Elaine McMahon</p> <p>Exploring smoking, mental health and smoking-related disease in older adults Annette Burns</p>	<p>Circumventing the 'ick' factor: A randomised trial of the effects of omitting affective attitudes to increase intention to become an organ donor Frank Doyle</p> <p>Development of a theory-based online intervention for post-treatment cancer survivors Teresa Corbett</p> <p>Goal-setting as a behaviour change technique in diabetes self-management: A systematic review of intervention studies Milou Fredrix</p> <p>Towards a bio-psychosocial, community-based intervention for food allergy incidents in Europe: Trans-disciplinary approaches to disease management. Katarzyna Pyrz</p>	<p>Trier on Wheels? Cardiovascular reactivity in a simulated stressful driving scenario Gillian Murphy</p> <p>Positive emotion regulation and cardiovascular reactivity to stress Katie Connolly</p> <p>The effects of intranasal oxytocin on cardiovascular and psychological stress response: A double blind placebo-controlled RCT Zelda di Blasi</p> <p>Loneliness exaggerates cardiac response to acute stress Eoin Brown</p>
	<p>Afternoon Tea & Coffee Boole Lecture Hall Basement</p>		
16.30-17.20	<p>Plenary Session 3 Boole 2</p> <p><i>Professor Ivan Perry</i> University College Cork</p> <p>Obesity: A public health perspective on behaviour change.</p> <p>Chair: Dr. Gerard Molloy</p>		
17.20-17.50	<p>Award Ceremony & Closing Ceremony <i>Dr. Gerard Molloy, Chair of PSI Division of Health Psychology, Dr. Samantha Dockray</i> Boole 2</p>		

Note: Only the presenting author is noted, the full authorship and affiliations will be listed in the full programme.

Poster Presentations

Category

Dementia and Older Adulthood

Informal caregivers for people with dementia: Altered cognitive performance and HPA axis activity and heightened depressive symptoms	Andrew P. Allen
Moderators of the effect of stress exposure on executive function in spousal dementia caregivers	Caoimhe Hannigan
Insufficient evidence linking spousal dementia caregiving to cognitive dysfunction: An attempted meta-analysis	Maria Pertl
How does benefit finding work? Mechanisms linking benefit finding and psychological wellbeing among spousal dementia caregivers	Maria Pertl
Regulatory fit, stereotype threat, and stress in older adults	Feargus Fawsitt
A review of the stereotype embodiment model	Feargus Fawsitt
Investigating the social-cognitive correlates of self-reported physical activity among community dwelling older adults	Chloe Walsh
One bout of open skill exercise improves immediate memory and cross-modal perception in healthy older adults	Jessica O' Brien

Health Behaviour

Investigating the efficacy of a smartphone application: breast awareness and breast cancer worry	Emma Carr
Associations between physical behaviour patterns and levels of anxiety and depressive symptoms in middle-aged adults	Christina Dillon
Medical student intervention to promote effective nicotine dependence and tobacco healthcare: Graduate Entry Programme (MIND-THE-GAP) feasibility randomised trial protocol	Frank Doyle
Medication adherence and apparent-treatment resistant hypertension: Systematic review and meta-analysis	Hannah Durand
	Karen Farrell

A pilot study of a psychosocial intervention for improving self-management, psychosocial outcomes and glycaemic control in adolescents with type 1 diabetes

Antibiotic-seeking behaviour in a sample of medical and non-medical students for URTI

Cora Keeney

An investigation of the effect of socio-economic status on female adolescents' attitudes towards public and private breastfeeding

Caoimhe Madden

Conscientiousness, the Health Belief Model, and adherence to the oral contraceptive pill: A prospective study

Tara Moore

Self-compassion, physical health and the mediating role of health-promoting behaviours

Sara Dunne

Psychobiological Research

Is Type D personality associated with loneliness, health behaviours and resting blood pressure and heart rate?

Eimear Cleary

Examining the role of impulsivity in psychobiological stress reactivity in young adults in Ireland

Sarah Delea

Psychobiological stress reactivity: Cardiac responsivity and anger

Shane Galvin

Examining intergenerational transmission of experience using a qualitative psychobiological approach: A pilot study

Mary Mangan

Life events, loneliness and cardiovascular reactivity to stress

Grace McMahon

Examining the relationship between early life adversity and psychobiological stress responses in emerging adulthood

Esther Purkiss

Drawing as a stress reliever: Effects on perceived stress and cardiovascular recovery

Katharina Keogh

Pregnancy and Children

'Gaelic for girls': Rationale, study protocol and methodological considerations

Orlagh Farmer

The psychosocial predictors of benefit finding in parents caring for children with developmental disabilities

Eadaoin Slattery

The protective effect of child-parent closeness: impact of socio-economic status and gender on the self-concept and behavioural problems of Irish nine year olds	Sorcha Kehoe
Caesarean section birth, stress responsiveness and cognitive function in young adulthood: Implications for the microbiota-gut-brain axis and neurodevelopmental programming	Paul Kennedy
Putting the positive in pregnancy: The role of positive psychological factors in promoting prenatal mental health	Karen Matvienko-Sikar
The ultrasound scan as a device for the maintenance of Caesarean sections rates in Brazil	Monalisa Nascimento dos Santos Barros
The impact of school exclusion on the psychological wellbeing of parents caring for a child with developmental disabilities	Louise Ryan
Supporting children with chronic pain in school: Understanding teacher and student experiences of pain in the classroom	Sarah-Louise Tarpey
Role identities and depressive symptomology in parents of children with disabilities	Joanne Cantwell

Food, Weight and Body Image

The lived experience of bulimia nervosa: An interpretive phenomenological analysis	Alice Cashman
The Bariatric Journey	Louise Concannon
The psychological impact of bariatric surgery	Hayder Shabana
Weight regain after bariatric surgery: A qualitative study of behavioural and psychosocial factors	Niamh Gethin
Coping strategies, alexithymia and anxiety in young patients with food allergy	Audrey DunnGalvin
An investigation into the relationship between trait mindfulness, attitude to emotional expression, and emotional eating and BMI in adults attending a weight management	Susan Fox
Exploring the prevalence of internalised weight bias and its impact on body size estimation accuracy	Niamh McGrath
When the soul is silent, the body speaks: Alexithymia and body uneasiness in a non-clinical adolescent sample	Isabella Musculino

An online study of inhibitory control training and food preferences using mouse-tracking tasks

Loukia Tzavella

Measurement

Development, translation and validation of health-related quality of life measures for primary ciliary dyskinesia

Laura Behan

Orthorexia or mismeasurement: Examination of the ORTO-15

Lisa Murphy

Time to think about measurement? Temporal orientation and health behaviours

Lisa Murphy

Self-perceived health versus objective health in adolescence

Siobhan O' Neill

Inclusion of sex (biological) and gender (psychosocial) dimensions is still a challenge for European health research: A trans-disciplinary research investigation

Katarzyna Pyrz

Interventions

An exploration of passive Indoor Nature Exposure (INE) on stress, perceived pain and fatigue in adults with Fibromyalgia: A pilot feasibility study

Patricia Darcy

The Preliminary evaluation of the feasibility, acceptability and effectiveness of Web-MAP (Web-based Management of Adolescent Pain) in an Irish population of children who suffer from chronic pain

Darina Gormley

Can coaching improve wellbeing for clients with BPD?

Karen Riordan

An examination of the effectiveness of a cognitive group intervention for people with Acquired Brain Injury

Carol Rogan

Best possible self: A Randomised Controlled Trial

Zelda di Blasi

Health Care & Services

The influence of the practitioner-patient relationship on pain perception: a placebo-controlled RCT	Zelda di Blasi
Patients and health care professional perspectives on psychological services for people with Diabetes in Ireland	Julie Barrett
An exploration into the experiences of working as a Healthcare Assistant in a nursing home setting	Niamh Moran
The concept of infertility amongst health care professionals: An exploratory study	Andrea Nagy
'It's Like You Are Nothing': An Investigation into How Asylum Seekers Experience the System of Direct Provision	Treasa O' Brien
A literature review examining the role of a companion attending consultations with the patient	Emma Troy
